

SUMMARY:

I'm a Full Stack Web Developer with a passion for AI and ML. I excel at creating visually stunning websites and developing sophisticated web applications. I love innovating and bringing new ideas to life in the digital space.

EDUCATION

- Vivekanand Education Society (VES)
Completed HSE in Scence with 90.2%
Scored 99.275%tile in MH-CET 2022
(2020-2022)
- Bachelors of Technology in Computer
Science and Engineering from Sardar Patel
Institute of Technology
(2022-Present)

Soft Skills

- Decision making
- Hunger for excellence
- Multi-tasking
- Strategic Planning and communication

Hard Skills

- Frontend-**HTML, CSS, Javascript, Bootstrap CSS,Tailwind CSS, ReactJS**
- Backend-**Python (Django, Flask)**
- Database-**SQL, SQLite**
- ML- **Scikit-learn, TensorFlow**
- Python libraries like **Tkinter, NumPy, Pandas and Selenium (automated software for chrome)**

EXPERIENCE

Web Developer Intern

Cognifyz Technologies | March 24-April 24

- Working as a frontend developer at Cognifyz Technologies since a month, contributing to various projects including the creation of landing pages. Utilized proficiency in HTML, CSS, Tailwind CSS and JavaScript to develop visually appealing and responsive UI.
- Successfully completed assigned projects within tight deadlines, demonstrating strong time management and problem-solving skills.

Relevant Projects

PetBud

- Petbud uses a hinge-style UI, allowing users to swipe through pet profiles with details like hobbies, maintenance, and medical history for intuitive selection and engagement.
- Beyond adoption, Petbud offers essential functionalities for pet owners. Users can easily book vet appointments and track their pets' locations, ensuring their furry friends' health and safety are always a priority.
- Petbud simplifies finding nearby pet stores, making it effortless for users to access pet supplies and services. This all-in-one app ensures pet owners have everything they need to provide the best care for their pets right at their fingertips.

SplitIt- An opensource to SplitWise

- SplitIt is a PWA (Progressive Web App) which offers an appealing UI, unequal/equal splitting, overall expense tracking, and 2D payment gateway integration with Stripe, making expense management intuitive and efficient.
- The app provides detailed charts for expense analysis and simplifies group expense management, helping users track and understand their spending effortlessly.
